Why choose Us?

Choose us and you're choosing a trusted brand that's been transforming Britain's homes for nearly 50 years.

A brand with a well-earned reputation for high quality windows, doors, conservatories and orangeries. And a brand that is at the forefront of the industries innovation. It means you can be confident you are making the right choice for your home.

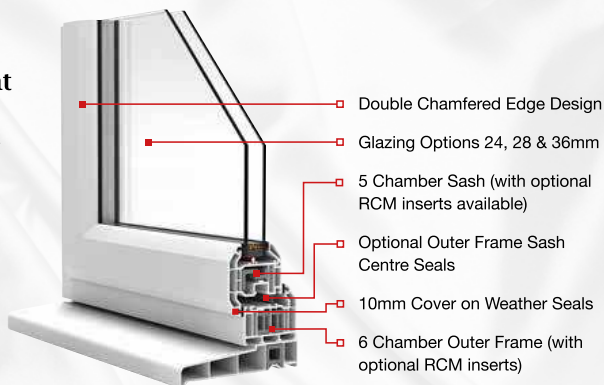

The choice is yours

The Aesthetics

When it comes to windows, we offer three different frame shapes. Each one offers outstanding style and superb performance. It's just a matter of choosing the look that's right for your home.

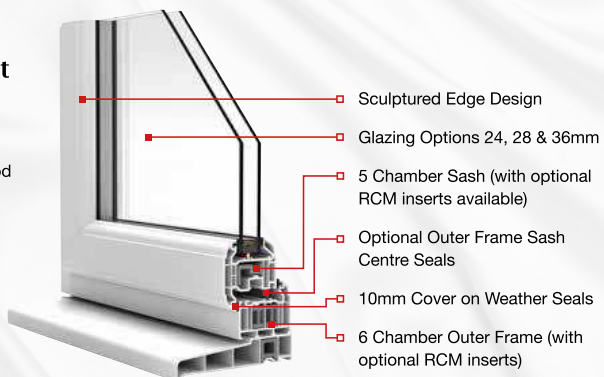

The Optima Chamfered Casement Window

The slim, chamfered shape of the Optima Chamfered Casement Window is perfect for replacing timber or aluminium frames or upgrading from early-generation PVC-U.

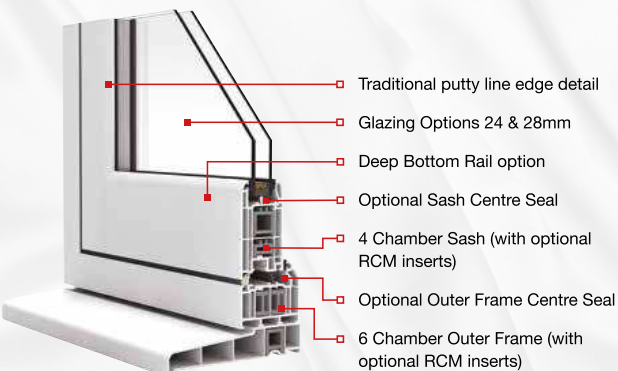

The Optima Sculptured Casement Window

The elegant Optima Sculptured Casement Window has a gently curved shape which looks as good in a new build home as it does in older properties.

The Optima Flush Casement Window

The Optima Flush Casement Window beautifully and accurately replicates the original features of traditional timber casement windows with its flush aesthetics.

Impressive energy efficiency credentials

Energy Efficiency

We all want to keep our energy bills as low as we can and reduce our impact on the planet. When you choose Optima, your windows and doors will be doing their bit. Optima products meet all requirements for thermal efficiency as standard. If you want products that meet the highest of specifications, you can do that too. When correctly specified, Optima products are capable of meeting Passivhaus standards, the highest standards for thermal efficiency.

Reassuring security for complete peace of mind

Security and Safety

Security on Optima products is second to none thanks to innovative features and intelligent design. The products feature the very latest in high-security hardware, including advanced multipoint locks, keeps and key locking handles. They also feature intelligent design innovations that offer enhanced strength and rigidity so they are less susceptible to forced entry.

The features mean that Optima products meet all legal requirements for security as standard. You can also choose to upgrade to Secured by Design-accredited hardware so you know you have products that meet a recognised standard for security products that can deter and reduce crime.

A versatile design classic

Optima Chamfered Casement Windows

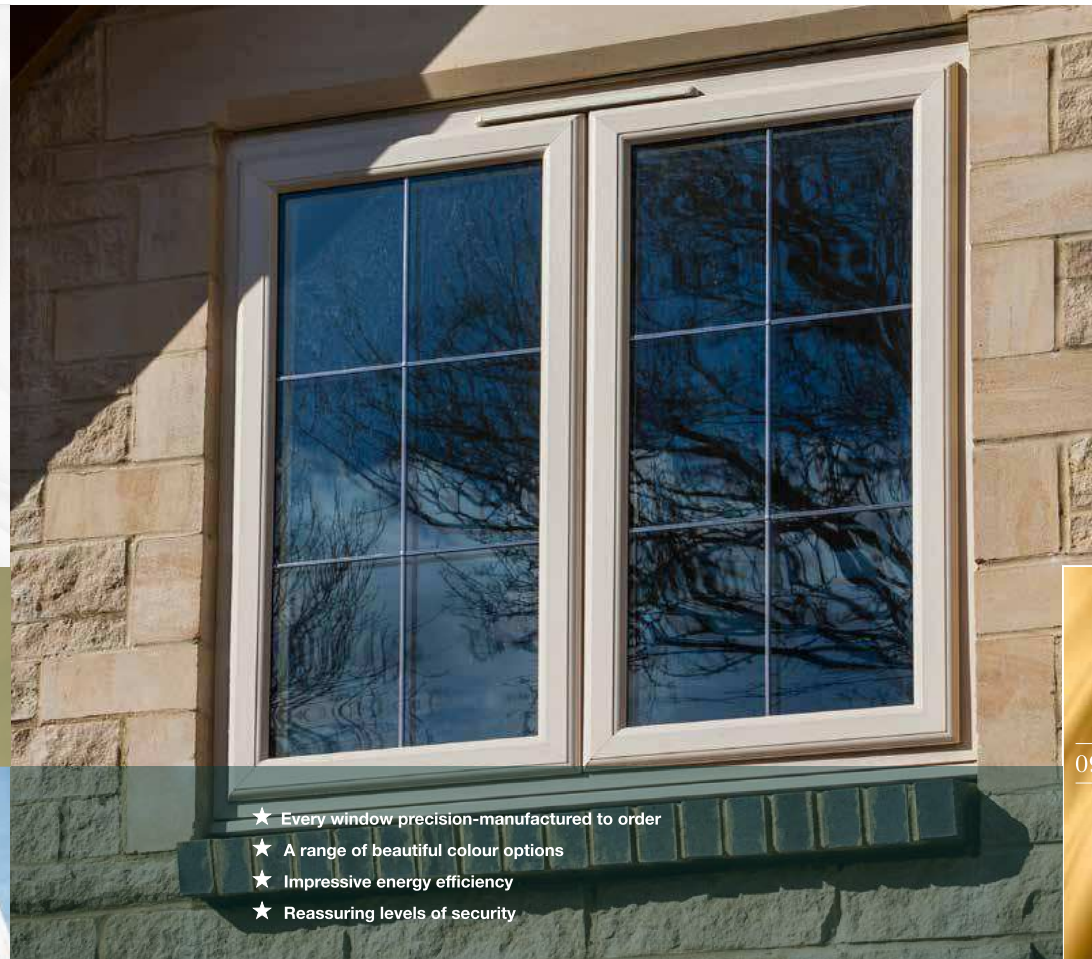

The Optima Chamfered Casement Window is a design classic that's suitable for almost any size or layout – including bay and bow windows.

The clean chamfered shape of the frame sits as comfortably in a modern home as it does in a heritage home, giving it a versatility that's hard to beat.

All the beauty of a timber door with none of the maintenance

Composite Doors

Our composite doors come in a wide range of designs and colours to suit homes of all styles and ages. They each feature a stunning timber-effect finish that recreates the beauty of a timber door.

At the same time, the materials used in their construction mean they are stronger, more secure and more energy efficient. They need less maintenance too. It means they are beautifully designed for modern life.

Add a lovely, light-filled space to your home

Conservatories & Orangeries

Whether you need extra space for working, dining or simply relaxing, a conservatory or orangerie is the answer.

We have a wide range of conservatories and orangeries so there's something for every style of home.

Whichever design you choose, your space will be individually designed and manufactured to order to your precise requirements. The end result will be a room that enhances your home and your lifestyle

- ★ A wide range of designs

Add a splash of colour to your home

Colour choice

All our windows, doors, conservatories and orangeries are available in a wide range of colours.

You can choose from elegantly understated heritage shades such as Chartwell Green, modern classics such as Agate Grey or Claystone or bold and dramatic options such as Anthracite Grey or Black Ulti-Matt. There are even dual colour options so you can have one colour on the outside and another on the inside of your home.

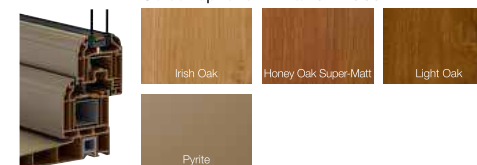

Whichever shade you choose, it will have a complementary base shade that will mean your windows will look good whether they are open or closed. They will also benefit from state-of-the-art colour application to ensure outstanding quality and durability.
