

THE WARMER ROOF BUILD UP

Tile Breather Mesh

Provides air flow gap underneath tiles, allows roof to breathe preventing condensation.

Roof Tiles

Choose from a range of tile options to blend in with your existing house tiles

15mm OSB or Ply

OSB / Ply outer skin for extra strength and rigidity.

Timber Frame

Natural timber skeleton manufactured with a unique modular pod system.

Gutter & Fascia

Stylish Ogee Gutter System and Fascia.

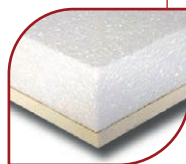

Glulam Ringbeam

A robust, carefully engineered ring beam that is light enough to sit on your existing frames.

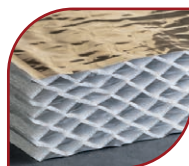

Insulated Plasterboard

Insulated plasterboard for additional thermal and vapour protection

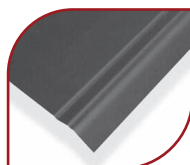

Multi Foil Insulation

125mm honeycomb insulation for exceptional thermal performance

Eaves Protector

Provides added protection to eaves beam from extreme weather conditions.

Breather Membrane

Waterproof membrane protects from water ingress and allows roof to breathe.
